QUANTUM SOUND THERAPY

Clears Your Environment While Harmonizing Your Emotions

The OmPocket instrument broadcasts silent vibrational wave forms to produce Quantum Sound Energy. Because your brain is a field of energy -as is your environment- you are in a constant state of entanglement from discordant energies. Inside this instrument are inert noble gases combined with Tesla technology that produce quantum sound energy.

The OmPocket creates a vortex that clears discordant energy and helps entrain your brain, harmonize your emotions and protect your clarity and stability.

The OmPocket is a portable instrument that supports you day and night. Whether you're at home, work, or running errands the quantum healing energy travels with you.

The OmPocket is like carrying your energy healer with you. Hold it as you take a few minutes to meditate or solve a problem. It helps you to connect with your inner self and creates an oasis that allows you to cope and de-stress.

The OmPocket AM/PM sound tracks allow you to align with your specific needs day and night. You can also enhance your experience by listening to these frequencies through earbuds, headphones, or speakers. In addition to the soundtracks that came with your player, we have provided coupons for a personalized voice code soundtrack.

PLAY YOUR VOICE CODE SOUNDTRACK THROUGH YOUR POCKET (Available at: <https://quantumsoundtherapy.com/cloud-sound-therapy/>)

The secret to your accelerated healing lies in the five octaves of your voice. Using our proprietary algorithm to analyze five octaves of your voice, we are able to determine the areas where energy is blocked, concentrated or weak. We then develop a customized Voice Code soundtrack for you to listen to, that balances and harmonizes your energy field and emotions.

To create your customized soundtrack, just follow the instructions on your coupon sheet.

Quantum Structured Water

Blending Instructions

1. MIX one ounce or more of Quantum Concentrate to 1 gallon of distilled water. Each bottle will make 8 gallons.
2. PLEASE VIGOROUSLY SHAKE THE CONTAINER FOR A FEW SECONDS. Cooler temperatures are beneficial. You can increase the amount of concentrate to increase the potency of your beverage. For maximum power and best results, we suggest mixing 1- 2 ounces of concentrate to one gallon of distilled water.
3. Use a 1-ounce plastic measuring cup or the cap of the water bottle (2) to add concentrate to distilled water (or high-quality spring water). Distilled water has been stripped of all memory and hard particles that interfere with frequencies. The frequencies have been added to the water so they act as a tuning fork in the body.

Quantum Structured Water Suggested Practices

Dehydration can be a major health problem. Our water super-hydrates and, if given a choice, should be the only water you drink. We recommend drinking at least two gallons per week. As Quantum Structured Water liberates energy, we recommend that you consume SUPERCALM PM structured water after 6 PM.

Quantum Structured Water has the correct structural geometry to perfectly penetrate the membranes of cells and deliver the ingredients. We encourage you to drink or mix our water with any food, herbal shakes, protein powders, herbs, or vitamin supplements to boost the body's ability to absorb healthy nutrients.
